

Anam Elahi

anamelahi04@gmail.com | +91 7683075050 | Delhi, India | LinkedIn | GitHub | Leetcode

Software Engineer with full-stack development experience across production systems, real-time applications, and REST APIs. Strong CS fundamentals from GATE CS preparation; currently pursuing MTech AI.

Education

National Institute of Technology (NIT) Silchar

MTech in Artificial Intelligence

Silchar, India

2026 – Present

Jamia Hamdard

B.Tech in Computer Science; CGPA: 7.97/10

New Delhi, India

2021 – 2025

Technical Skills

Core CS: Data Structures & Algorithms, Operating Systems, Computer Networks, DBMS

Languages: Java, Python, JavaScript, C

Frontend: React, Tailwind CSS, HTML5/CSS3, GSAP, Bootstrap

Backend & APIs: Node.js, Express.js, RESTful API Design

Databases: PostgreSQL, MySQL, MongoDB

Cloud & Deployment: Railway, exploring AWS

AI Tooling: Proficient with AI coding assistants (Claude, GitHub Copilot) for accelerated development, debugging, and code review

Other: Qiskit (Quantum Computing)

Work Experience

Software Developer Intern

April 2025 – Sep 2025

NMDFC, Ministry of Minority Affairs, Govt. of India

New Delhi, India

- Developed a production-grade Artisan Management System deployed across 10+ Lok Samvardhan Parv exhibitions, benefiting 1,000+ artisans nationwide.
- Built dynamic software modules with an advanced admin panel, enabling 100% centralized control and improving scalability for multiple state-level deployments.
- Engineered selfie + GPS-based attendance with a custom artisan approval algorithm, reducing fraudulent entries by ~70% through real-time verification.

Web Development Freelancer

July 2024 – August 2024

Quirky Folks Entertainment

Remote

- Developed a responsive, cross-browser static website for a client, aligned with their brand and design vision.
- Provided post-deployment support and maintenance, ensuring a smooth user experience after launch.

Projects

CollabSphere – Metaverse Platform for Remote Teams | *React, Node.js, Express, PostgreSQL, Phaser.js* [github](#)

- Engineered a real-time bidirectional communication layer supporting concurrent multi-client avatar movement and text-based interaction across a shared virtual office space.
- Designed and connected a PostgreSQL database to persist user sessions, map data, and space configurations across sessions.
- Built for remote-first teams, simulating a virtual office space with live multiplayer state synchronization.

PinSplash | *React, PostgreSQL, Unsplash API* [github](#)

- Built a full-stack image collection service enabling users to organize Unsplash images into custom collections, backed by a PostgreSQL database.
- Implemented an "Add to Collection" feature supporting seamless creation of new collections and additions to existing ones.
- Integrated the Unsplash API for real-time image fetching, optimizing request handling to improve load performance.

Publications

Gupta, P., Nadeem, D., & **Elahi, A.** (2023). *Artificial Intelligence in Agriculture*. Elsevier SSRN – ICICC 2023.

Gupta, P., Nadeem, D., **Elahi, A.**, Abuzar, N., Neha, (2025). *Harnessing AI and IoT for Enhanced Disaster Resilience: A Case Study on Earthquakes and Floods* Conference certificate. ICIDSSD 2024.

Certifications & Leadership

Certifications: NPTEL – Programming in Java; NPTEL – Introduction to Database Systems; Udemy – The Complete Quantum Computing Course.

Google Developer Group (GDG) on Campus – Web Development Team (2024–2025): Led web development projects and facilitated workshops fostering innovation.

AI & Robotics Society, Jamia Hamdard – Core Team Member (2022–2023): Organized workshops and tech events focused on AI, ML, and robotics.
