Experience

Web Development Freelance, Quirky Folks Entertainment

July 2024 - August 2024

- Developed a responsive and visually engaging static website for a client, ensuring cross-browser compatibility and mobile responsive.
- Collaborated with the client to understand their requirements and deliver a design aligned with their branding and vision
- Provided post-deployment support and maintenance, ensuring smooth user experience after launch

Projects

CollabSphere- A metaverse platform for remote teams

<https://github.com/anamelahi/CollabSphere>

Tech Stack: React, PostgreSQL, Node.js, Express, Phaser.js

- Developed a metaverse platform that simulates a virtual office space for remote-first companies.
- Implemented real-time multiplayer interactions where employees can move their avatars and communicate with other employees via text.
- Designed and connected a PostgreSQL database to store user sessions, maps, and space configurations.

PinSplash

<https://github.com/anamelahi/pinsplash>

Tech Stack: React, Nodejs, Express, PostgreSQL

- Developed a full-stack image collection service inspired by Unsplash, enabling users to store and organize images into custom collections
- Implemented features like “Add to Collection” allowing users to create new collections and add images to the existing ones seamlessly.
- Integrated the Unsplash API for real-time image fetching, optimizing the API integration process to improve performance.

URL Shortner

<https://github.com/anamelahi/url-shortner>

Tech Stack: NodeJs , Express

- Designed and implemented a URL shortner application, reducing long URLs into concise, user-friendly links
- Implemented robust validation and error handling to ensure only valid and unique URLs are processed.
- Followed best practices in API design to create secure, RESTful endpoints for seamless integration and usability.

Skills

- **Frontend:** React, Tailwind, Bootstrap
- **Backend:** Node.js, Express.js
- **Database:** PostgreSQL
- **Languages:** Javascript, Java
- **Tools:** VS Code, Postman, Figma, IntelliJ
- **Other:** REST APIs

Education

Jamia Hamdard, Bachelor of Technology in Computer Science and Engineering

2021 – 2025

- **CGPA:** 7.76/10

Hamdard Public School, 12th

2021

- **Percentage:** 90.8%

Hamdard Public School, 10th

2019

- **Percentage:** 93.6%
